**Triangle Biotech Research Symposium III:
Innovating Through Partnerships and Collaborations
Call For Abstracts Open**

(Tinton Falls) The Call for Abstracts period has opened for the Triangle Biotech Research Symposium III: Innovating Through Partnerships and Collaborations, October 28, 2014 at the North Carolina Biotechnology Center in Research Triangle Park. The BioPharma Research Council (BRC) offers this education program and conference as part of its mission to stimulate interaction among functional silos across the biomedical research and development community.

This full day event provides a sharing platform to help accelerate revolutionary advances from the lab to the clinic, focusing upon BioInformatics; Clinical Trial Design; Nano to Macro and Back Again; Agricultural Biotech; BioMarine and Devices.

Committee members who represent significant companies, universities, nonprofit organizations, government, and suppliers will review Abstracts and set the agenda. Keynotes, panels, roundtable discussions, and breakouts will flow through the day.

Full information and Abstract submission is at www.biopharmaresearchcouncil.org

---###---

Founded in 2009, the BioPharma Research Council is an association for scientists throughout the biomedical research community- industry, academic, nonprofit, government, and supplier labs and their teams.
